A message from our Executive Principal

I welcome you to Australian International School Dubai.

To those new to this amazing school, our staff are supportive and friendly, so please ask if there is anything you need. Our position in the school community is a most important one, and I trust that this year will not only be enjoyable, but rewarding for us all as we continue to engage in actions that focus on making a difference for each student in our care.

As we move through the year, I thank you in advance for the wonderful work you will do this year to ensure we make a positive difference to each student. I look forward to the contribution that as a team we will be making to our school, and to the support you will be providing to our students and other staff members as we continue delivering on our core business at AIS Dubai.

This resource has been produced to help you settle quickly into our school. It contains important information for you to familiarize yourself with and what expectations are expected of you as a visitor at AIS Dubai. A school is a complex organisation, and many routines are established so that everyone can contribute in an effective manner.

Our combined staff are totally committed to achieving the best educational outcomes and highest level of independence possible for all our students, and like you, I am thoroughly looking forward to achieving our performance indicators.

“the greater the loyalty of a group toward the group, the greater is the motivation among the members to achieve the goals of the group, and the greater the probability that the group will achieve its goals.” –Rensis Likert

Our volunteers are invaluable to our school, however, the program needs to be supported by sound policies, procedures and planning in order to meet our objectives.

Our volunteers support our children under the direction of our staff by providing an extra set of adult hands which can be used in school and community-based learning programs.

EMERGENCY PROCEDURES

A critical incident is any situation that impacts significantly on the welfare of staff and students and/or has the potential to interfere with their ability to function effectively. The impact of the incident may either be direct or indirect. Responses will vary as to type, degree and location.

Warning Devices

Evacuation

Emergency Evacuation Alarm is recognised by a long continuous siren followed by verbal instructions stating “Evacuate, evacuate, evacuate” and flashing red strobe lights located throughout the school.

- If working under the supervision of a class teacher, visitors will follow the directions of the teacher and MUST accompany the class to the designated area (front area of the school)
- Visitors working in other areas of the school who are not under the direction of a staff member MUST exit the school building according to the closest evacuation point. Visitors will need to report to the Warden. All people on the school premises MUST be accounted for.
- The procedure is explained on each entry when signing in at the Atrium

Lock Down

Emergency Lock Down Alarm is recognised by a chime (Ding Dong) followed by verbal instructions stating “Lockdown, lockdown, lockdown” and flashing blue strobe lights located throughout the school. This siren will only continue for a short time. When the siren stops, continue with the lockdown procedure, until the all clear is signalled.

If working under the supervision of a class teacher, visitors will accompany the class to the closest safe area, usually the classroom, and follow the teachers directions. For your knowledge, lights, fans, air conditioners and overhead projectors will be turned off and the doors will be locked. NO use of mobile phones is allowed and there is to be no talking.

- Visitors working in other areas of the school are to make their way directly to the nearest class or foyer and follow the directions given.
- It is important that you make sure the teacher reporting to Administration reports that you are also in the room.

WORKPLACE HEALTH AND SAFETY

AIS Dubai is committed to providing and maintaining a safe and healthy working and learning environment. AIS Dubai is responsible for the health, safety and wellbeing of all visitors, staff and students in the workplace, in line with legislative requirements.

By law, smoking is not allowed on school grounds.

No visitor may engage in any specialised activity that would normally be carried out by a licensed tradesperson—this includes working with electricity, handling chemicals or major repairs and maintenance to plant and buildings.

Visitors have the same workplace health, safety and wellbeing obligations as an employee. To assist in maintaining a healthy and safe environment we ask that you:

- act with common sense
- take reasonable care in protecting your own health and safety and not to put others at risk by your actions or failure to act
- follow reasonable instructions on health and safety
- use equipment supplied e.g. gloves and trolleys to protect your health and safety
- not be affected by drugs and alcohol
- report all matters regarding Workplace Health and Safety to one of the Workplace Health, Safety and Wellbeing Officers on site.
